

Statewide Admin Zone

The Admin talkgroups are provided to minimize any confusion between “forward incident operations” and “rear area” support, as well as to maintain chain of command and assist with continuity of incident operations.

The Statewide Admin Zone should be programmed into ALMR radios for use by agencies that provide support functions such as logistics, finance and administration during incidents.

In most cases, the Admin talkgroups can be used by EOC personnel or those deployed to an Incident Command Post, when assigned. During many incidents, the standard means of incident support communications within an EOC are wire line telephone, cellular phones, and e-mail, and should always be used when available to maximize the effective and efficient use of the ALMR System by first responders and on-scene support personnel.
