

Alaska Land Mobile Radio Facility Security Penetration Policy

1. Applicability

This policy applies to the Alaska Land Mobile Radio (ALMR) Communications System Operations Management Office (OMO), System Management Office (SMO), and zone controller spaces located in Anchorage and Fairbanks. Any substantial revision or update of the policy must be approved by the User Council.

2. Policy

The OMO will conduct at least one unannounced security penetration test each calendar year using the checklist contained in the Facility Security Penetration Procedure 200-2.

3. Procedures

The facility penetration attempt will focus on gaining access to the OMO, SMO, and/or zone controller areas within the respective facility to simulate a person trying to bypass existing security measures and potentially cause harm to persons or property within the described areas. The processes outlined in Facility Security Penetration Procedure 200-2 will be followed.

5. Effective Date

This policy shall become effective upon signature and shall remain in effect until rescinded. The policy shall be reviewed periodically and updated, as required.
